## Legislative Assembly of the Province of Ontario

**1st Session, 34th Parliament**  
Thursday, February 23, 1989

Mr Smith (Lambton) moved,

That, in the opinion of this House, recognizing that highways in Ontario are constructed in such a way to permit vehicles to travel safely at speeds greater than the presently posted limits, the Government of Ontario should consider amending current legislation to increase speed limits on 400 class highways to 115 km/hr for cars and light trucks, and to 105 km/hr for trucks over 1 tonne, and on secondary highways to 90 km/hr for cars and light trucks and to remain at 80 km/hr for trucks over 1 tonne.

A debate arising at 11.02 a.m., further proceedings were reserved until 12.00 noon.

Mr Elliot then moved,

That, in the opinion of this House, recognizing the importance of the Niagara Escarpment as a significant feature of Ontario's natural heritage, and that the use of the Escarpment lands for farming, tourism, housing and aggregate extraction has a significant impact on that land, the Ministry of Municipal Affairs should be directed to ensure that any development or use of the Niagara Escarpment lands be environmentally sustainable development; and that the Ministry of Municipal Affairs be further directed to maintain heritage and environmental concerns as priorities when considering land use planning within the Niagara Escarpment boundaries.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr Smith's Resolution Number 64, the question, having been put, was lost on the following division:—

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr Elliot's Resolution Number 65, the question, having been put, was declared carried, and it was,

*Resolved*, That, in the opinion of this House, recognizing the importance of the Niagara Escarpment as a significant feature of Ontario's natural heritage, and that the use of the Escarpment lands for farming, tourism, housing and aggregate extraction has a significant impact on that land, the Ministry of Municipal Affairs should be directed to ensure that any development or use of the Niagara Escarpment lands be environmentally sustainable development; and that the Ministry of Municipal Affairs be further directed to maintain heritage and environmental concerns as priorities when considering land use planning within the Niagara Escarpment boundaries.

 THE AFTERNOON SITTING

1.30 P.M.

The Speaker ruled as follows:

On Thursday of last week, the Member for Burlington South, Mr Jackson, raised a question of privilege which has given me a great deal of food for thought and I am now ready to rule on whether or not I can find a *prima facie* case of privilege relating to this matter.

As honourable members will remember, the Member for Burlington South brought to the attention of the House, a matter in which he alleged that a judge, the Honourable Mr Justice Walsh of the Supreme Court of Ontario had issued a Court Order which would have prohibited one of the parties in this case from communicating with any party on matters relating to the action in question. The member alleged that by extension, the Court Order would have to be interpreted to mean that parties in an action before a court of the province, could not in fact, because of this order, communicate with a member of this House. In his presentation the honourable member refers to this order and suggests that it had been issued on January 20 of this year. On obtaining a copy of the order, I was able to ascertain that this order had been issued on May 27 of 1987. I believe the honourable member made an honest mistake here, based upon the information that he had obtained and in no way do I consider this to be more than an honest mistake. However, I have noticed that a correction has been made to Hansard in this regard without the Member having informed the House. In my opinion, this correction is one that should have been brought to the House's attention by the Member.

I think it would be apropos at this point to quote the order in question.

“THIS COURT ORDERS that the Applicant and the Respondent are hereby restrained from communicating by telephone or otherwise in such manner as may molest, annoy or harass the other and they are each hereby expressly prohibited from writing or contacting any third party in any way which touches upon the matters of this action.”

This Court Order of general application as it stands is part of the decision of Mr Justice Walsh on May 27, 1987. Subsequently, the same case came before Mr Justice Osborne on January 17 of 1989. During hearings before Mr Justice Osborne he gave permission to the Respondent to communicate with others. Therefore, as of January 17 of this year, the Court Order in question has no further application and the person in question has been able to communicate with whomever she wishes since that time.

I have given a lot of thought as to whether or not I should be tempted at this point to give a ruling in a hypothetical way upon the question raised last Thursday and after reflection, I feel that I must be guided by the tradition that Speakers throughout history have resisted giving any ruling based on a hypothetical situation.

The question as raised, and presented by the honourable member for Burlington South, is a very compelling and interesting one but as I have just said, a Speaker is not able to rule on hypothetical situations. Therefore, at this time, I can find no prima facie breach of privilege.
